

BOARD OF TRADE SHOULD MAKE SOME SOLUTION OF NATURAL GAS QUESTION

IS EFFORT BEING MADE TO SECURE LIQUOR LICENSE?

Building Going Up on Second Avenue Said to be for Wholesale Liquor

NO PETITION AS YET

Not Much Faith Being Placed in Report by Local People

An excavation for a new building on Second Avenue is being made next to the Gano photographic studio and the report is commonly circulated that a building will be erected for a wholesale liquor store. The report further states that Edmonton people have secured the license.

The STAR is very much inclined to doubt the veracity of such a report, for the reason that a certain number of signers is necessary before a wholesale liquor license can be obtained. No petition has as yet been circulated and it is not thought that there is any use of one being started.

Wainwright has two hotels at the present time, the bars of which can furnish all the liquor and liquid refreshments necessary to the consumption of the people of this community for sometime to come, and, with the majority of local people of the same frame of mind, it would appear foolhardiness at this time to even attempt to secure supporters, let alone construct a building with a view to securing a license afterwards.

FOOTBALLISTS SEND CHALLENGE TO THE CHAUVIN PLAYERS

Wainwright, July 17, Editor STAR.

Dear Sir:—Referring to your remarks in the STAR of July 16th, re the Wainwright Football team being classed as "Pikers," I should like to explain the facts of the case. On July 1st our team played the Chauvin Football team in the morning for the Fieldhouse Shield and Lookets and after extra time had been played could only make a draw of two goals each. It was decided with the consent of Chauvin to replay the match in the evening, but the Chauvin Secretary and Manager came to me late in the afternoon and told me that as their team was so done up they had decided not to replay, and to forfeit the prize to Wainwright, and the match was cancelled.

I take this opportunity to challenge the Chauvin Football team to replay the match on any date that would suit them, and as the shield has to be played for in Wainwright, we will pay all their expenses for the match. I am sending a copy of this challenge to the Chauvin Football Club Secretary.

Yours Respectfully,
W. G. Long,
Sec. Treas.
Wainwright Football Club

Mrs. R. G. Watson and family of Melville are visiting at the home of Mrs. A. T. Watson, Third Avenue.

Despite Favorable Reports, Nothing Has Yet Been Done Towards Exploiting Wainwright's Gas Fields -- Could Sufficient Money be Raised by Local Subscription?

FINANCIAL HARD TIMES IS CAUSE OF THE DELAY

When Question was First Brought Up Local Property Owners were Willing to Contribute to a Fund which They Proposed Loaning to Town to Carry on Operations.

Town Council Has Been Working Quietly on the Matter but Little Headway Can be Made on Account of Treasury Being in No Better Condition than Other Western Towns--Board of Trade Should Make Personal Census of Available Funds.

How Wainwright's natural gas problem can be solved is something that would be worth considerable money to the discoverer, even before drilling operations started and before it was known whether or not the hypothesis that the town is underlaid with gas is definitely proved. There is probably not a single citizen or ratepayer but who is desirous of seeing something done in the matter, and in the majority of cases they are willing to demonstrate their faith in the gas question by rendering financial assistance.

Several reports of a most favorable character have been made, but in spite of these, which followed strict investigation, no company or individual have as yet come forward and announced their intention of going after what appears at this time to be a sure thing. Reports state that drilling operations will start before fall, but it would almost appear obvious that this season of the year is most practical for work of this kind. For this reason, many refuse to pin their faith to such unofficial rumors.

When the agitation to bore for gas was most rife, several citizens stated that they would contribute certain amounts of money into the venture, or, in other words, would loan the money to the town with which to carry on operations, the same to be repayable when gas was struck. Mr. J. N. Beaudry of Edmonton, who owns considerable property here and who is therefore heavily interested in the town, stated that he would

subscribe \$1,000 to a fund with which to start. M. L. Forster offered to subscribe half this amount and double it if necessary. Other private citizens were of the same frame of mind, and at that time several thousands of dollars might have been raised.

The past few months, however, have seen many changes. Nothing further has followed the announcements of these men and noticeable interest in the gas question is practically dead, locally. The town council, however, still has it in view, but to what end is unknown, for the coffers of the public treasury are much reduced from what they once were. Despite this fact, the council is still quietly carrying forward further investigations with a view to making the necessary expenditure later on. This, however, should not prevent outside people from taking up the matter.

Even though financial hard times are starting the town in the face, which is no more than the case with every town and city in the west, something more definite should be done before fall. The board of trade would make no mistake in going into the matter in the most minute detail. A study should be made of just how much money could be raised by local subscription and the council petitioned for a charter and franchise. There is a solution to the question and it would well behoove the board of trade to work it and put it in tangible shape.

FINE DISPLAY OF PICTURES

Frank Bell has erected a picture show case, showing scenes in the town and district, next to the Wainwright Pharmacy. The class of photographs displayed place Mr. Bell in the professional class.

\$15 TO BOY SCOUT BAND

At the meeting of the board of trade on Friday evening last, the boy scout band was given a cheque of \$15, for the excellent services rendered at the Dominion Day celebration.

AN EMERGENCY MEETING

An emergency meeting of the board of trade will be held on Friday evening of this week in the office of the Wainwright Realty Co. A change is forecasted in the board of officers.

START LAYING STEEL

Information comes indirectly through Train Master S. J. Covey that the G. T. P. will start laying steel immediately on the Battledore Wainwright branch out of Battledore.

Mr. T. G. Cook, of the Imperial Lumber Co., returned last week from a business trip to branch yards on the Calgary branch.

RETURNS FROM TRANSCONA

"Jimmie" Blackburn, who was connected with Cassidy & Co. for some time, returned here from Transcona and is now in charge of the above named firm. Mr. Coolen recently went to Winnipeg.

MEETING AGRICULTURAL SOC.

President McLean of the agricultural society has called a meeting of the executive officers for Saturday, July 20th, when matters of importance will be dealt with.

FIRE BRIGADE PRACTISE

Fire Chief Mills has sent out notices to members of the fire brigade for a practise tomorrow night. The alarm will be rung in at 7 o'clock sharp and citizens are requested to turn out.

Mr. J. H. Dawson was a business visitor to Edmonton last week and while in the city interviewed Mr. W. J. McLean in regard to accepting the principalship of the Wainwright school.

Dr. and Mrs. McQueen returned home on Thursday last from an extensive trip through the north-western states and points in Ontario.

W. J. McLEAN HAS ACCEPTED PRINCIPALSHIP

Much Sought Educationalist is Re-engaged by the Board

AT SALARY \$1,800 YEAR

Parents of School Children Desirous of Having Him Reappointed

After duly considering the offer from the local school board, Ex-Principal W. J. McLean has finally accepted the principalship of the Wainwright school for the ensuing year at a salary of \$1,800, and will be on hand to resume his duties on August 18th, when the school opens for the Christmas term.

According to a certain member of the school board, special inducements were directed towards Mr. McLean because of the services he had previously rendered, and parents of the scholars who were desirous of having their children educated under his direction.

The salary is several hundred dollars higher than Principal Black received and a few hundred higher than Mr. McLean commanded when he was previously in charge.

G. T. P. AUTHORIZES DEBENTURE ISSUE

A by-law was passed last week at a meeting of the directors and shareholders of the G. T. P., which was held in Montreal, authorizing the issue of debentures to the amount of \$15,000,000, under the provisions of the Grand Trunk Pacific loan act, passed at the last session of the government. An effort will be made to secure the money at once.

OFF FOR CALIFORNIA

Mr. and Mrs. Walter Peterson left on Monday for Napa, Calif., where they will visit for a time. It is possible that they may decide to locate there, although they still hold their property here.

ACCEPTS EDMONTON POSITION

Miss Elsie Martin left last week for Edmonton, where she will enter the main exchange of the Alberta Telephone office. She was in charge of the exchange here during Miss Moffatt's absence.

RETURNS FROM PEACE RIVER

"Slim" Newport returned on Saturday last from a trip to the Peace River country. Mr. Newport's friends will regret to learn that the climate did not agree with him there and that he is now in ill health.

SUSTAINED FRACTURED WRIST

Mrs. Carrie, who resides south of the buffalo park, had the misfortune last week to fall from a buggy, sustaining a fractured wrist. Dr. Little attended to her injuries.

On Wednesday afternoon last, Mr. Joseph F. Murray of Jarrow and Miss Laura S. Homer, of Kinsella, were quietly married in Grace Methodist Church by Rev. C. R. Coreoran.

Miss Olive Murray, sister of the groom, acted as bridesmaid, while James Murray, brother of the groom, was best man.

SURVEYING ON THE C. N. LINE

Surveyors on the Vermilion-Medicine Hat line of the C.N.R. are now running the second preliminary line between these two points, one party working out of Medicine Hat and the other out of Vermilion. The former party is about twenty-five miles south of here and the other party is about the same distance north. At equal rates of speed the two parties should meet somewhere in this vicinity.

SAYS LAND HERE IS BEST HE HAS YET WITNESSED

Owens Two Sections of Choice Farm Land North of Town.

Mr. E. R. Gurney, chairman of the finance committee of the Fidelity Trust Company, and vice-president of the First National Bank, of Fremont, Nebraska, was in town recently and while in this vicinity looked over his holdings north-east of here.

Mr. Gurney and his partner own two choice sections of land in the vicinity of Orindale and believes that he has as good if not better land than any he has seen in the whole north-west. Seven years ago, these sections were purchased at a figure of about \$10 per acre, and Mr. Gurney is of the opinion that it is worth at least double this amount.

In addition to what he owns in this vicinity, Mr. Gurney is the owner of several sections in the Goose Lake country, and he is convinced that the three sections he owns here are superior to any he has viewed in Canada.

TOURNAMENT FOR VIKING SILVERWARE

A baseball competition, the eligible teams being Viking, Irma, Holden and Wainwright, will be held at Viking on July 30th to decide on who will hold the Viking silverware, now in possession of the locals. Three sets of medals will also be played for. Wainwright will undoubtedly be on deck.

THANKS LOCAL PATRONS

The management of the Gilt Edge celebration very heartily thanks the Wainwright people for the excellent manner in which they attended the sports, and helped make them such a success.

GUN CLUB SHOOT TODAY

The Dupont Fob will be shot for at the traps today at 2 p.m. All members are requested to be on hand and all will have an equal chance of winning this as it is a handicap event.

A RELIABLE OUTSIDER

In a news report from Irma, telling of the baseball game of Thursday last, Bert Elise is termed, the old reliable home pitcher. And when he was being presented with a reward for his services he stated his regrets at not being a resident of Irma.

DISTRICT'S BEST CROP

What is pronounced the best crop in the district is that of Wood-Wainwright Co., about three miles north-east of town. The wheat has been headed out for sometime and is beginning to turn color.

BOARD OF TRADE IS DOWN TO BUSINESS

Held Meeting at which Important Matters were Subjects Under Discussion

The board of trade held a meeting on Friday evening last and considered such matters as the elevator question, the securing of the brick yard. Special attention will be directed towards securing another elevator for the town, in view of many complaints lodged last year by farmers of this district.

CELEBRATION AT GILT EDGE WAS GREAT SUCCESS

Old and Young Celebrated as They Should on Such Occasions.

The first annual celebration at Gilt Edge was even a greater success than was anticipated, previous to the gathering of the three hundred or more people who were in attendance. Farmers from all parts of the countryside were in attendance and it would be safe to say that at least one hundred people from town were present. In brief, it was a grand success and reflects great credit on those in charge of the arrangements.

One of the greatest undertakings and perhaps one that was appreciated more than anything else by the holiday makers was the feeding of the people by the Gilt Edge ladies. Dinner and supper were served to hundreds of people by such willing workers as Mrs. George Plaxton, Mrs. McNern, Mrs. Plaxton and others. And the array of good things, which loaded down the tables, was enough to create ravenous appetites.

The celebration was enjoyed even more so than was July 1st. affair in town, or at least this was the expressed opinion of many. Athletic events, country races, horse races together with other sports, and baseball were the attractions for the day. The ball game resulted in a victory for Wainwright, the score being 8-1. Especially interesting were the athletic events, which were taken part in by many young, middle-aged and old.

"Teddy" James, with his "nigger dolls," shooting gallery and knife throw, did a thriving business throughout the entire day and succeeded in providing suitable amusement for those who wished to test their luck. So fast did the money come in Teddy's direction at one time that he found difficulty in making change, whereupon he replied that he would take the money but make the change the next time he came to town.

The dance in the evening, which followed the distribution of prizes by G. L. Hudson, M. P. P., was greatly enjoyed by those who remained to tip the "light fantastic." The Gilt Edge auditorium, however, proved a trifle small and many who wanted to remain could not do so on this account.

A song, which did not appear on the program, was rendered by Mr. Archie McLean from the school steps, and his able attempt at amusing the people was encored time and again. Mr. McLean takes great interest in such affairs and displayed it in this way at Gilt Edge.

The prize winners included not a few old people showing that elderly folk returned once more to the days of their childhood and celebrated as they should on such occasions.

BALL TEAM HAD OFF DAY, PLAYED POORER BALL; RESULT NATURAL; IRMA WON

Local Team Lost First Game of Season, But the Boys were About Due to Lose.

BETTER PLAYING DID IT

Irma Has Ball Team That Does Credit to It, but that Umpire---

In accounting for the defeat of the local baseball team at Irma on Thursday last, many things might be said and numerous excuses might be offered, some of which would and would not hold water. But Wainwright was defeated by a team that played better baseball and to say that the umpire won the game for Irma would be ridiculous. His decisions in many cases were in error, but they proved as much so for the victors as for the losers. Irma has a good ball team and so credit should be placed where it rightly belongs.

Wainwright was without the services of Livingstone on the slab, his place being taken by Fritz Fredrickson, a G.T.P. boy, who played well under the circumstances. At short stop and second base, Kalne and Elder didn't do any too well, while the centre fielder, a recent arrival in town, was almost useless. Wainwright had an off day and Irma, knowing its up-hill-and-down-dale diamond like a book was "on." There is no use crying over spilled milk, so dry up and let us hope for the best next time. Nevertheless, Irma has "some" ball team.

VIKING GAME TO-NIGHT

Viking baseballists will arrive on this afternoon's train and will play the local team at the ball grounds tonight. This is the return match, the first being won by Wainwright. It should prove a good game and every fan should bring along his voice.

Warm weather of the past week or more has caused the decapitation of several and among them, "Bill" Washburn. Walter Musson is among those who have demounted their upper lip.

Thomas Bissan has purchased the interests of Mr. Collette in the business formerly conducted under the firm name of Girard & Collette, implement dealers. The transaction was made sometime ago at a figure said to be in the neighborhood of \$2,500.

Miss Anna Moffatt returned from Owen Sound last week, in company with Mrs. W. S. Clark, who has been visiting in St. Ols and other Ontario points for the past six weeks.

Mrs. W. J. Hamilton, who has been visiting her mother, Mrs. E. Carbert, for the past month, returned to her home in Gilbert Plains, Man. on Monday last.

Rex Webber, who has been in the southern states for the past year or so, returned here last week.

An interesting letter from John Manner, who is now at Fort George, has been received by the STAR, but cannot receive publication this week on account of lack of space.

Friends of Miss Reila Smith, who visited here sometime ago, will regret to learn of her recent death at her home in Wroxeter, Ont. She was a sister of Mr. O. C. Smith, formerly of the Merchants Bank.

WAINWRIGHT ALTA., WEDNESDAY, JULY 23rd, 1913

NOTHING short of a demand is being made by the Calgary News-Telegram that the federal government loan the people of Alberta \$10,000,000 until the present financial depression subsides. The claim is set forth that with the continuation of such a condition of affairs the wheels of industry will, sooner or later, remain silent and stationary. Whether or not the financial institutions have the money and refuse to loan it is a matter with which the people are not concerned. The people are not getting it, who need it most, and, according to the News-Telegram, the people of Alberta are in greater need of financial assistance than in any other western province.

The News-Telegram is not far astray when it says that the Dominion government has the power in its hands to remedy this state of affairs. The News-Telegram calls on the Borden government to act and act promptly, in order to save a situation which is increasing in gravity with each passing day. The agitation is for a temporary loan, which the people of the province, themselves, individually, cannot get, but which the government is in a position to secure.

A few weeks ago, the moneyed interests in the United States framed up a scheme to cause a national stagnation in business and industrial circles. Before the scheme had progressed to any length, President Wilson came to the rescue by offering to flood the country with three hundred million dollars. The backbone of the impending financial depression was broken, and so it can be done in this case, if the government comes to the rescue of Canadians as President Wilson did to the Americans. If the public demand a loan of this kind, it is clearly the duty of Premier Borden to at least investigate.

BOARD of trade meetings will be held in future at least once every fortnight and it is the present intention of the executive officers to hold meetings every week, in view of the volume of work to be done. This is certainly good news and it is to be hoped that President Mills will live up to the intention, which the members endorse.

Such matters as the elevator question, the securing of a creamery and the question of good roads are things that deserve attention and this cannot be given unless meetings are held. It will be admitted that the board has been rather lax in holding meetings for the past few months, the cause for which can be attributed to lack of finances, the necessity for which is apparent with board of trade work. At a time such as this, when business is at a standstill in the town, the real value of the board of trade can be demonstrated to advantage, providing that board of trade can bring about such a change that will increase the volume of business and set aright the stagnation which exists.

BOARD OF TRADE IS A NECESSITY AT THIS TIME

The board of trade is a necessity at this time. It is in a position to show its real value and can do so with the bringing about of needed changes. Most important of all is the acquiring of new settlers, and it must be admitted that even with quiet times throughout the West the trend of immigration continues. To secure a full share of these newcomers is the important object the Wainwright board of trade should have in view, for on the settling up of the district the prosperity of the businessmen, whom the board of trade represents, depends.

The town of Wainwright has \$25,000 worth of debentures to sell on the money markets and the offers being made are, to say the least, painful to those in charge of town affairs. When replies were received asking for options, which was followed in a few instances by offers of anything from \$3 to \$9, the situation was considered grave enough. Messrs. Brent-Noxon & Co., of Toronto, now come forward and state that they are willing to accept the debentures at eighty per cent.

What will be done towards accepting such an offer is questionable, although it would not appear that the council should have any doubt as to the best course to pursue. The money market is very tight at the present time and the town of Wainwright is indebted to the banks for a large sum. But unless the banks press the town and demand that the obligations be met with at once, what is to prevent the town from waiting until such time as the situation in the money market changes? The banks are receiving good interest on their money and are secured in more ways than one.

To accept the offer of Brent-Noxon & Co. would not be in accord with business principles, unless the banks' clamor for their money is too strong. By accepting it, the council would be throwing away five thousand dollars in securing a loan, for which the best possible security would be given. By all means the council should not consider the acceptance of this offer.

W. J. Bryan says he cannot live on \$12,000 a year without going into the pile he has laid aside for old age and infirmity.

The numerous reports and editorials these days on the money stringency are significant of one thing anyway, everybody needs the coin.

Imma has a baseball team that deserves more than good reports, and so the STAR gives it deserving editorial mention.

Citizens should do all in their power to squish any attempt to secure a wholesale liquor license here. Two bars are enough.

The thermometer, praises be, has been hovering around the ninety mark for the past few days. No rain needed.

WHAT OTHERS ARE SAYING

(Saskatoon Phoenix)

Up in Melfort town the Roman Catholics are holding service in the Orange Hall. If the Catholics reciprocate at some other point it would be in order to send the word to Redmond and Carson.

(Winnipeg Telegram)

Members of the House of Lords are threatening to go on a hunger strike and thus avoid passing the home rule bill.

Gophers are doing great damage in the district and once more are the farmers and the government reminded that something radical must be done to rid the country of this great evil.

It costs money to run a newspaper, and especially when there's no money in the country. Send in your subscription now.

(Saskatoon Phoenix)

Speaking of the west, James J. Hill says "the boys have been a little too ambitious." Now, where would James J. Hill have been today if he had possessed less ambition than history shows him to have.

(Lethbridge Herald)

Editor McDonald of the Toronto Globe calls for a John Knox to lead the church back to the people. Why doesn't the editor assume the role?

Foster, the veteran weather prophet, predicts abnormal weather conditions throughout the west the latter part of this month. Fierce storms and much hail will be experienced.

"Give the council time" has been the excuse offered by the STAR in the past. But this does not hold true of the rink fire tank.

COMMENT

In some parts of the district the wheat crop is beginning to turn color. Cutting will soon be in progress.

Did anyone ever hear tell of the South Wainwright Company and the promise made to erect twenty residences in that locality?

The Edmonton businessmen will be in Wainwright on August 8th. The board of trade should be prepared to royally receive them.

The Edison Critic is no longer a weekly journal, having emerged from that class to a semi-weekly. Success to it!

There is quite a joke connected with the origin of the baby show which was impromptuously announced at Gilt Edge last Wednesday.

It is too bad that we cannot repeat that heading which we were pleased to display last week—"Leoni baseball team has not met one defeat."

The board of trade is down to business again after a short vacation. Luck of finances necessitated this brief holiday.

Nothing doing at the rink fire tank as yet. When operations will be resumed is a matter the council and a Higher Power only know.

*Gilt Edge again proved on Wednesday last that when it comes to celebrating, that district can hold the candle at anytime.

There is some mystery connected with the alleged hold-up case and it is now thought that the frightened chink was dreaming.

There is too much vacant land in the immediate vicinity of the town and the sooner it is settled the sooner will the town prosper.

An authority gives as his opinion that if the insurance rates are decreased twenty per cent, a difference of some thousands of dollars will result.

The shortage of money has good effects as well as evil ones. It is causing real estate sharks to go back to more honest employment.

Large areas of new land are being broken this summer, and next year about this time they will have a much different appearance than now.

Fair weather or foul, it makes no difference, as long as a hail storm does not come, a bumper crop is sure to follow.

It is evident that there is a darty in the woodpile somewhere, so far as that football game between Chauvin and Wainwright is concerned.

To exploit Wainwright's gas fields is something every citizen would like to see done. But where is the money coming from?

Enough booze is being linked up already without that which would be disposed of with a wholesale liquor store in town.

Strict discipline must be observed by all in the employ of the G. T. P. Otherwise the company would be sorely handicapped.

Mr. W. J. McLean will return to Wainwright to take charge of the school. His services were hard to secure.

Synopsis of Canadian Northwest Land Regulations.

THE sole land of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agent for the land. Entry by proxy may be made at the office of any Local Agent of Dominion Lands, who sub-agents on certain conditions. Rules—Six months residence upon and cultivation of the land in each of three years. A homestead may be within nine miles of the homestead on a farm of at least 16 acres, on certain conditions. A suitable horse is required in every case except when residence is performed in the vicinity. To obtain a title to a homestead in good standing, every prospective homesteader must reside on the land for six months in each of three years from date of homestead entry, including the time required to open homestead, and to secure extra cultivation. The same of cultivation is required to reduce in case of young, northern or stony land after report by Homestead Inspector for patent. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$10.00 per acre. Distant—Must reside six months in each of three years, must cultivate 40 acres and erect a house worth \$1000.

Victoria, B. C.

NOTICE
On and after July 15th., all livery work at the Buffalo Livery will be strictly cash. The public will kindly govern themselves accordingly.

Flies are more plentiful now than at anytime during the year. Evidently the swatters didn't get busy early enough.

TRADE WITH EMPIRE AND LOWER PRICES

How Protection and Preference Worked Out in Sugar Business

No better justification of the National Policy as the Imperial preference could be desired than the statistics regarding the importations of raw and refined sugar in the last fourteen years. In 1899, before the British preference and the Canadian refineries began to make themselves felt, Canada imported 233,000,000 pounds of raw sugar and 32,800,000 pounds of refined sugar from all countries. Last year we imported 563,800,000 pounds of the raw and, despite the enormous growth of population, only 22,000,000 pounds of refined. As a result of the British preference we now get the bulk of the unmanufactured article from British territory.

In 1899, two years after the first installment of the preference, we bought 237,661,000 pounds of sugar from foreign countries and 28,000,000 pounds from British countries. Last year we took only 148,800,000 pounds from foreign sources and 376,831,000 pounds from countries which fly our own flag. The National Policy and the preference have built up an important Canadian industry employing a great number of Canadians, and they have at the same time enhanced the prosperity of other British communities.

The increase in the preference to the British West Indies by the Government will augment both developments as well as reduce the price of refined sugar to the Canadian consumer. Surely this is good business for Canada and the Empire. Whenever a British country can benefit itself and at the same time divert trade to another British country, surely it should lose no time in doing so.

MOOSE JAW FLAX MILL

To be Erected at a Cost of Seven Hundred and Fifty Thousand Dollars

By a deal that has just been closed by Mr. Richard Loney, of Moose Jaw, Sask., who is staying at the King Edward for a few days before going on to Ottawa from the west, the International Linseed Oil Co., Ltd., one of the largest concerns of its kind on the continent, will locate a plant and flax mill in Britannia Park, at a cost of \$750,000.

Work on the new mill will be started immediately, according to Mr. Loney, who has just received word from the company to that effect. The building will be one of the largest in the country and it is estimated that its daily capacity will be 3,000 bushels of flax per day, and those at the head of the company figure on bolting and grinding at least 2,000,000 bushels of flax during the year.

The location of this flax mill at Moose Jaw marks a new era in the industrial development of the town, and as fully 87 per cent. of the total flax grown in the west is grown in Saskatchewan this industry bids fair to be one of the greatest in the Province.—From the Toronto News.

A Chance For Farmers
Last year about 12,000,000 dozen eggs were imported into Canada from the United States, against a duty of three cents per dozen intended to protect Canadian farmers against the product of the warm South, where hens and niggers thrive mutually. Most of these eggs went into the West, where nearly everyone is too busy producing No. 1 wheat to bother feeding the "no grade" by-product to poultry. At twenty-five cents per dozen there is a good profit in eggs for the Western farmer, if he produces enough of them. There is a better price, at a better profit, if the farmers will develop co-operative egg-circles and proceed to sell their eggs on business principles—trade mark, advertising, and all. Eggs which come all the way from Alabama cannot be expected to have a reputation when they reach Canada—and without a recognized local supply of certain high quality these southern eggs set the prices.

Tariff Helps Western Towns
"The tariff creates conditions under which Western American manufacturers can see an advantage in either moving over the line or establishing branch plants on this side."
The above statement is taken from a letter circulated by the Industrial League, Limited, of Saskatoon. It continues: "Some interesting figures regarding industrial development in Saskatchewan during the past couple of years are to be gleaned from the Government reports, and they have a significant bearing on the whole situation. In 1908 there were eighty establishments employing 1,444 hands; in 1910 the number had increased to one hundred and seventy-three, employing 3,250 hands; and at the close of 1912 there were three hundred and fifteen establishments, employing 4,040 hands."

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has cured it even when malignant and epidemic. For sale by All Dealers.

IRMA NEWS

The United Farmers and Co-Op. held a picnic on the 17th, which proved quite a success. The day was all that could be wished for and the farmers and families were all out. The ladies brought well filled baskets and fed a goodly number at noon. The afternoon started with the arrival of the east bound express, which brought the Viking ball team and a number of supporters. A very interesting game followed, which was won by the home team, 4-3.

The children were treated to compete in a number of races and many a heart was gladdened by Johnny's first or second prize.

The 4 o'clock train, which took Barker and his Pets home sorrowfully, brought Wainwright's ball team, with a large number of rooters. Wainwright, with a record of not losing a game this season, took the diamond against the home bunch, and it really was a shame the way our batters hit the horsehide. Bert Rise, our old reliable, pitched the full eighteen innings. The game ended, 12-3, in favour of the Red Sox. P. J. Hardy umpired the game to the satisfaction of everybody, except Wainwright's first baseman. The athletic events were continued until dark.

IRMA, July 22nd.— We are not boasting about our crops, but on his return from Ottawa, Mr. J. G. Clark stated that the crops of this district looked

better than anywhere between here and the Dominion Capital.

Mr. Leland Swales, of Edmonton, is spending a few days with his brother, Valdia, here.

Miss Marge Clark, of Calgary, is visiting at her home, Clark Manor.

Mr. and Mrs. H. B. Armstrong and family are spending a month at Mrs. Armstrong's former home, near Brandon.

Mr. and Mrs. H. S. Purvis, of Sedgewick, are residing on their homestead, south of town.

George may go to the stampede, but we think he will go fishing.
